DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-19, drawn to an illuminated trap, classified in class 43, subclass 113.
- II. Claims 20-30, drawn to an electrocuting trap, classified in class 43, subclass 112.

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are drawn to different types of traps with different modes of operation.

A telephone call was made to Eric Groen on 12/9/02 to request an oral election to the above restriction requirement, but did not result in an election being made.
